I am a motivated and diligent software developer currently in my third year at Loyola-ICAM College of Engineering and Technology (LICET), with a CGPA of 7.9. I have developed strong proficiency in Python, C, HTML, CSS, and JavaScript, and have gained hands-on experience through various projects.

Projects

MULTIFUNCTIONAL TELEGRAM BOT

2023

- A versatile Telegram bot that offers a variety of jokes, an Instagram Reels downloader to easily save reels with just a post link, a JPG to PDF converter, and provides weather information for any location the user requests.

AUTOMATIC TICKET SCANNER IN PUBLIC TRANSPORT

2024

- Automated ticket scanning hardware paired with a user-friendly software for NFC card recharge.

SOCIAL MEDIA FOR BOOK LOVERS

2024

- A social media platform for book lovers: share your current reads, buy, lend, or sell books directly with fellow enthusiasts.

AUTOMATED EMAIL REMINDER SYSTEM DEVELOPER

2024

- Developed and implemented an automated email reminder system using Python, integrating SMTP for secure email delivery. Utilized scheduling libraries to ensure timely periodic reminders, enhancing workflow efficiency.

Achievement

- Runner-up in Technoteen'23, where me and my friends developed a hardware which scans ticket automatically in public transport also a software to recharge their NFC cards.

Education

High School

2020 - 2021

- Thirumurugan Matriculation Higher Secondary School (92.16%)

Loyola-ICAM College of Engineering and Technology

2022-2026

- Computer Science and Engineering
- CGPA: 7.9
